-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2,12-15 and 23-29 are rejected under 35 U.S.C. 102(b) as being anticipated by Gondouin 5462120.

Looking mainly at figure 3, Gondouin discloses an apparatus for creating a lateral well junction. A sleeve has a pre-machined window 1 therein. A cover 2 is disposed over the opening. A release material 29 is disposed at the cover and is exposed to the environment exterior of the sleeve. As to claims 2 and 23, the release material 29 isolates at least the portion of the cover in which the drillable members 29 are placed. As to claim 12, the cover 2 is a sleeve. As to claim 13, sleeve 2 is a lateral diverter. As to claim 14, sleeve 2 is considered a liner sleeve. As to claims 15 and 26, release material 9 is at least on the entire exterior circumferentially. As to claim 23, cement is placed in the annulus. As to claim 24, cover 2 is removed after applying the cement. As to claim 25, the cement is drilled through the window. As to claim 27, the hardenable agent is cement. As to claims 28 and 29, the sleeve is located and oriented using a hook in a hook hanger liner system.

Allowable Subject Matter

Claims 3-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 16-22 are allowed.

Response to Arguments

Applicant's arguments with respect to claims 1,2,12-15 and 23-29 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
